

Camil Gosmanov

camil@ou.edu ❖ Norman, OK

EDUCATION

University of Oklahoma College of Medicine
MD, Medicine

2024-2028

University of Oklahoma Honors College
BS, Computer Science
BS, Chemical Biosciences
BA, Economics

2018-2024

GPA: 4.0

GPA: 3.9

GPA: 4.0

- 3.97/4.00 Cumulative GPA, Summa Cum Laude
- Studied abroad in 2019 with OU Honors at Brasenose College, University of Oxford

EXPERIENCE

Pan Lab at OU

May 2024 – Present

Graduate Researcher

Norman, OK

- Implemented deep learning methods to discover critical molecular pathways that determine lung cancer outcomes using single cell genomic data.

Public Health Initiative at OU

Aug 2019 – May 2023

President

Norman, OK

- Led student-focused public health solutions club at the University of Oklahoma to optimize implementation of public health resources through team-based research projects.
- Team projects included: Vaping Awareness (2019), Covid Safety (2021), Nutrition (2022), Mental Health (2023).

McCall Lab at OU

Jan 2019 – Jan 2022

Undergraduate Researcher

Stephenson Research and Technology Center

- Utilized molecular networking data to discover pathogenic mechanisms in tropical parasitic diseases. (*Trypanosoma cruzi* and Leishmaniasis)
- Managed parasite maintenance, mass spectrometry sample extraction, and resulting data analysis.

RESEARCH

Frontiers in Mass Spectrometry-Based Spatial Metabolomics: Current Applications and Challenges in the Context of Biomedical Research

Jun 2024

Co-Primary Author

Published in Trends in Analytical Chemistry

- Review chapter exploring use cases of mass spectrometry techniques to analyze small molecule metabolites.

Impact of Visceral Leishmaniasis on Local Organ Metabolism in Hamsters

Aug 2022

Co-author

Published in Metabolites

- Explored pathways of parasite tropism in hamsters by analyzing metabolites using liquid chromatography mass spectrometry.

Mapping of host-parasite-microbiome interactions reveals metabolic determinants of tropism and tolerance in Chagas disease

Jul 2020

Co-author

Published in Science Advances

- Contributed to mass spectrometry data analysis involving exploration of pathogenic mechanisms of *T. cruzi*.
